BUFFALO TOURS LAUNCHES IN THAILAND

Buffalo Tours has taken over tour operator North by North East Travel Services in Thailand and officially launched a Buffalo Tours Thailand office in Bangkok.

The main aim of Buffalo Tours Thailand is to offer inspirational, unique, affordable and responsible travel experiences.

Thailand Country Manger, Ms Arabella Lakin and her team will offer unique holiday options engaging and supporting local communities.

'Buffalo Tours' experience in sustainable travel enables us to raise-the-bar in tour operating in Thailand. Our sustainable practices aim to contribute directly to local communities and provide the traveler with authentic alternatives to mass-market travel.

We have a range of authentic accommodation options, unique cultural experiences and soft adventure activities. Our aim is to raise awareness of the beauty that exists in place such as Isan, Mae Hong Son, Khoa Yai National Park, Phang Nga and the Similan Islands.

Despite popular belief, there are vast areas of Thailand which remain rich in culture and awaiting discovery. ' said Ms Lakin.

Buffalo Tours Thailand can organise anything from standard leisure holidays, adventure (such as sailing, kayaking, cave diving and trekking), to group volunteer conservation projects.
